

Are You in a Rundown Condition? Does Your Headache?

Elgin, Tenn.—"I can say that Dr. Pierce's Golden Medical Discovery and his 'Pleasant Pellets' have been the means of restoring my health. I was weak and run-down, had sick headaches, and my kidneys were all out of order. It was a misery for me to walk around. I began taking Dr. Pierce's medicine and they put me on the road to good health right away. I want to speak a good word for Dr. Pierce's remedies to all sufferers." — HARRISON SHEPARD, R. F. D. 1, Box 18.

Sold by druggists for fifty years.

LANGLEY WINS SEED FIGHT

The House voted to appropriate \$360,000 for the free distribution of seeds by members of Congress. This is \$120,000 more than was appropriated for the current fiscal year.

This was the first time in years that the Annual Agricultural Appropriation bill provided no funds for seed distribution.

Representative Langley, Republican, of Kentucky, introduced an amendment embodying the appropriation, which was adopted after Representative Blanton had made an unsuccessful attempt to have it ruled out on a point of order. He denounced seed distribution as a "graft."

Taught by Experience.

Dr. Samuel Johnson, the man who first said, "Hell is paved with good intentions," was a man who endured the severest poverty, and was always put off by those whom he asked for support, only to be told after he became famous that they had intended to help him.

CIDER WON'T "BEHAVE."

(Philadelphia Record)

Argument on "the most vital case" testing the structure of the Volstead Act was heard recently in the United States Supreme Court on a motion of two Westchester county (New York) apple cider manufacturers appealing from Prohibition Commissioner John S. Kramer's refusal to permit them to manufacture apple cider generating more than one-half of one per cent. alcoholic content in the barrel.

It is absolutely impossible to make apple cider "behave" in a barrel, counsel for both sides agreed at the start of argument. Apple cider that goes into a barrel with a mere one-half of one per cent. may emerge later in an aged and robust condition registering 50 per cent. or upward—in fact, there is no limit to its kick.

Around this simple proposition of chemistry the argument centered. The judge reserved decision, after considering the importance of the apple in the cases of Adam, Paris, William Tell and Sir Isaac Newton.

SWEAR OFF TOBACCO

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

KENTUCKY'S QUOTA IN EUROPEAN RELIEF FUND

Alfred Brandels, State Chairman of the European Relief Council received a communication from National Headquarters that \$110,000 is regarded as Kentucky's quota in the national collection of \$33,000,000 with which to save 3,500,000 lives. The State has donated \$92,000 and every effort will be made to bring the contribution of Kentuckians to the figures sought.

Letters will go out from the Kentucky Headquarters to president of the organizations identified with the Kentucky Federation of Woman's Clubs, with the request that the Relief Fund be endorsed, and that the interest of the members be enlisted toward financial aid in this humanitarian cause. An appeal has come from Herbert Hoover to have the club women receive "Invisible Guests" into their homes until the next European harvest.

A donation of \$10 made to Richard Bean, State Treasurer, through any bank in Kentucky will bring membership in the Invisible Guest Club, a certificate signed by Herbert Hoover.

Tempered Cleanliness.

In the *Lois de la Galanterie*, written for beaux and dandies in 1640, it is urged that "Every day one should take pains to wash one's hands, and one should also wash one's face almost as often." Perhaps as often as twice a week?—Youth's Companion.

X-Ray Detects Swallowed Coins.

In the government mint in Japan an X-ray machine is used to examine suspected employees as they leave the establishment daily, and it has revealed the presence of coins that had been concealed in the guilty one's stomach.

People who object to landing in a warmer clime when they die could not attempt to follow the course of the liberty bonds.

SWIFT & CO'S WEEKLY PRODUCE MARKET REVIEW

Poultry values showed but little change from the previous week. Live poultry prices are slightly higher than last week, due to continued light receipts and more active demand.

There is a continued increase in the production of fresh eggs throughout all producing sections, and fresh eggs in carload lots are being shipped eastward from California, Oregon and Washington. This, with a larger production throughout the Central States, has caused a reduction in prices in the larger producing sections, and this has been reflected in lower prices to the producers.

Butter production is still reported above normal; there was no particular change in prices during the week.

CASCARETS

"They Work while you Sleep"

Make it your "hobby" to keep liver and bowels regular. If bilious, constipated, headachy, unstrung, or if you have a cold, an upset stomach, or bad breath, take Cascarets to-night and wake up feeling clear, rosy and fit. No griping—no inconvenience. Children love Cascarets, too. 10, 25, 50 cents. (adv.)

If you want to see a first-class bout without paying admission just hang out a British flag in an Irish neighborhood.

You Will Like INSTANT POSTUM

Because of its attractive flavor and real economy.

There's no waste because it is prepared instantly in the cup by the addition of hot water, and you can make it strong or mild to suit individual taste.
